

Glycerin

- A humectant used in this product due to its evident water- attracting capabilities that allow it to draw and absorb water from the air.
- Helps the skin retain moisture and increase its hydration levels for a more youthful glowing appearance.
- It is suitable for all skin types as it is non irritating to the skin and non allergenic.
- A clear liquid made by chemically combining water and fat that is normally derived from vegetable oil.

Sodium Hyaluronate

- The salt form of skin-identical ingredient hyaluronic acid.
- A water-binding agent that absorbs, attracts and stores moisture in enormous quantities.
- Increases hydration levels and helps strengthen skin barrier function.
- Maintains skin water content homeostasis (balance).
- Minimizes trans -epidermal water loss.
- Functions as a natural moisturizing factor that helps stabilize and maintain intercellular skin matrix (i.e., the “glue” within the skin that keeps skin cells together to avoid dry, rough texture).

Product name: Prophecy Multi-Mask

Function: Anti-aging face mask. Smoothes wrinkles. Intense hydration, glowing radiance.

Attributes: Paraben- free, SLS- free, sodium chloride- free. Not tested on animals.

Made in: Israel

Manufactured by: Manufactured for H.Zingboim Cosmetics Ltd. by Y.L. & G.V. Cosmetics Ltd., 34 Ben Zion Galis St. Sgoula, Petah Tikva, Israel, 4927934.

EU RP: IK Center for Testing and EU European Certification - CTEC. Address: Engures 5-69, Jurmala, LV-2016, Latvia.

To Use: Apply a generous amount to clean skin and massage gently. Leave on for 8-10 minutes, then wipe clean. Do not rinse. For best results, use twice a week.

Content claim: 100 ml, 3.37 fl. oz. U.S.

PAO: + 24 Months

***(1) Novel small sized hyaluronic acid with enhanced therapeutic properties**

PROPHECY
MULTI-MASK
Game - changing skincare

CAUSES:

Decline or Initial Signs of Decline in Skin’s:

- Volume and Hydration Levels Both in Epidermal and Dermal Layers
- Immunity Biological Responses
- Cellular Renewal Rate
- Firmness and Elasticity Levels

SYMPTOMS:

- Fine Lines
- Medium to Deep Wrinkles
- Sagging Skin
- Dry Thinning Skin

PROPHECY MULTI-MASK

HAVA ZINGBOIM SOLUTION:

Prophecy Multi-Mask is a luxurious multi-action facial mask that dramatically **increases** the skin’s hydration levels in both epidermal and demal layers, **nourishes, promotes** cellular rejuvenation and **intensifies** the skin’s absorption capabilities. It effectively prevents and reverses the clinical manifestations of aging skin which appears healthier, smoother and more radiant as soon as after the first application.

Prophecy Multi-Mask is based on scientifically proven multi-sized micronized hyaluronic acid molecules that penetrate deeply into ALL skin layers. It ensures enhanced therapeutic benefits more than any other hyaluronic acid based product known in the international cosmetic industry today. *Prophecy Multi-Mask* is based on a trailblazing scientific research conducted by the Chemistry Department and Faculty of Engineering at Bar-Ilan University *(1).

FORMULA BENEFITS AND UNIQUENESS

THE CHALLENGE:

Cosmetic manufacturers still face unresolved challenges in regards to HA molecules which

- Are too big to effectively penetrate the deeper layers of the skin.
- Can merely provide good hydrating capabilities and not much more than that.
- Can not successfully remain micronized while sufficiently preserving their chemical characteristics; as they absorb hydration, they are unavoidably “inflated” back to their original big size upon contact with water (even after being micronized to a size of 50kDa) as early as in the manufacturing process and before being placed inside the cream.

HAVA ZINGBOIM'S *PROPHECY MULTI-MASK*-OVERCOMING THE CHALLENGE:

(A)

It features novel multi-sized (small & big) hyaluronic acid molecules possessing intensified water absorption capabilities that allow a much more facilitated penetration deeper into all skin layers.

(B)

This has been successfully achieved

- **Even after** the hyaluronic acid had been **dissolved in liquid** during the production process.
- **Without “inflating” back to its original size** or **loosing any of its chemical characteristics**.
- While successfully preserving its **enhanced therapeutic attributes at an optimal manner**.

(C)

Prophecy Multi-Mask offers the following benefits:

- Contains both water attracting (**urea, glycerin, sodium PCA, sodium hyaluronate**) and water binding agents {**several types of oils, inositol, cocoa (theobroma cacao) seed butter**}. The interaction between these ingredients intensifies the effect achieved by the micronized hyaluronic acid molecules as well as
- Diminishes loss of hydration from within the skin to the environment (trans- epidermal water loss).
 - Ensures optimal water-content balance (Homeostasis).

- Improves the appearance of fine lines, wrinkles and folds by “plumping-up” their appearance.
- Increases the skin’s firmness and pliability levels by ensuring a well hydrated dermal layer that functions at an optimal manner.
- Encourages increased cellular rejuvenation rate. Helps remove dead skin cells from the stratum corneum hence, further facilitates the penetration of all other high-performance ingredients in this formula (**sodium lactate**).
- A film forming agent (**PVP**) adhering to the skin, functions jointly with ingredients that prevent the mask’s penetration into the skin in order to increase its absorption capabilities, minimize the appearance of pores and further diminish the appearance of wrinkles.
- Offers accumulative, non-invasive results achieved with NO side effects or down time periods.
- Intensifies the effect of injectable fillers in the face and lips while ensuring that the entire face is fresh and youthful (not just the injected areas).
- Soothes skin irritations or any discomfort (**dimethicone**) and accelerates the healing process of dry, rough, photo- damaged and extra sensitive skin. SLS – free paraben- free, sodium chloride free.
- Strengthens the skin’s barrier function, preserves its structural protein infrastructure and supports its immune response against external and internal aggressors.

High Performance Ingredients:

All multi-sized micronized hyaluronic acid molecules have been successfully implemented and preserved in *Prophecy Multi-Mask* via its high performance and top quality ingredients that **prevent aggregation** (recomposition of ingredients).

Three types of oils - *Prophecy Multi-Mask* is dominated by an oily phase as it contains three types of oils as major inhibitors of particle aggregation.

Inositol

- An effective skin replenishing agent.
- A major component of lecithin.
- Possesses water-binding properties that “lock- in” hydration thereby, minimizing trans-epidermal water loss.
- Plays a pivotal role in ensuring skin health at a cellular level (helps cell membranes respond to their environment).*
